

# DIGILUKISEULA

[DIGILUKISEULA.NMI.FI/IN-ENGLISH/](https://digilukiseula.nmi.fi/in-english/)

A digital assessment instrument for reading and writing

*Modernize the screening of reading and other key scholastic skills in your country!*

## Contact:

Jarkko Hautala, Head of research, [jarkko.hautala@nmi.fi](mailto:jarkko.hautala@nmi.fi), +358 40 805 3487

Juha-Matti Latvala, Executive Director, [juha-matti.latvala@nmi.fi](mailto:juha-matti.latvala@nmi.fi), +358 50 441 4043

# Why?

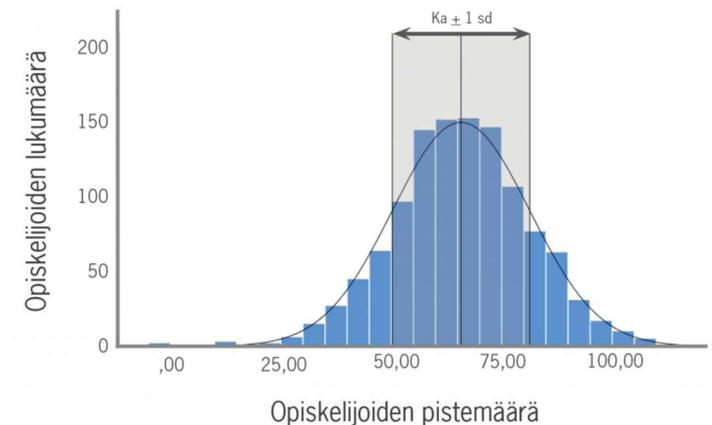

- Schools need to identify students with reading difficulties and provide them targeted support
- Traditional paper-and-pencil tests are laborious to organize, administer, score and manage
  - E.g. 4 days per 100 students with traditional paper-pencil testing
- Finnish teachers demanded NMI to develop a digital assessment service
  - Currently used in 80% of Finnish municipalities.
  - 650k assessments done in Finland, 150k annually, 20% growth rate, ~0% churn rate
- Follow regional reading achievements online – don't wait 4 years PISA results

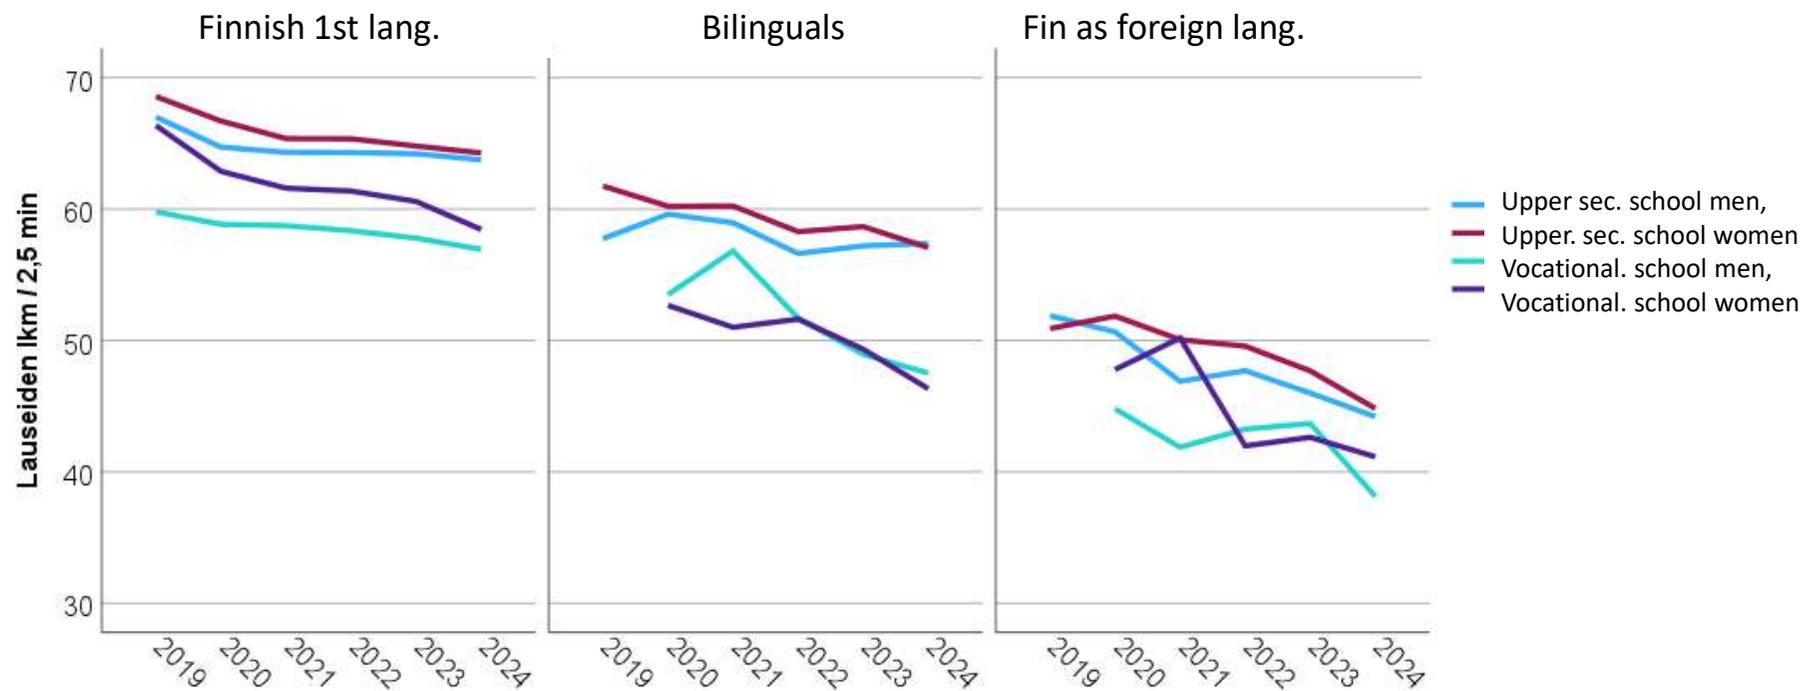

# Our solution

<https://digilukiseula.nmi.fi/in-english/>

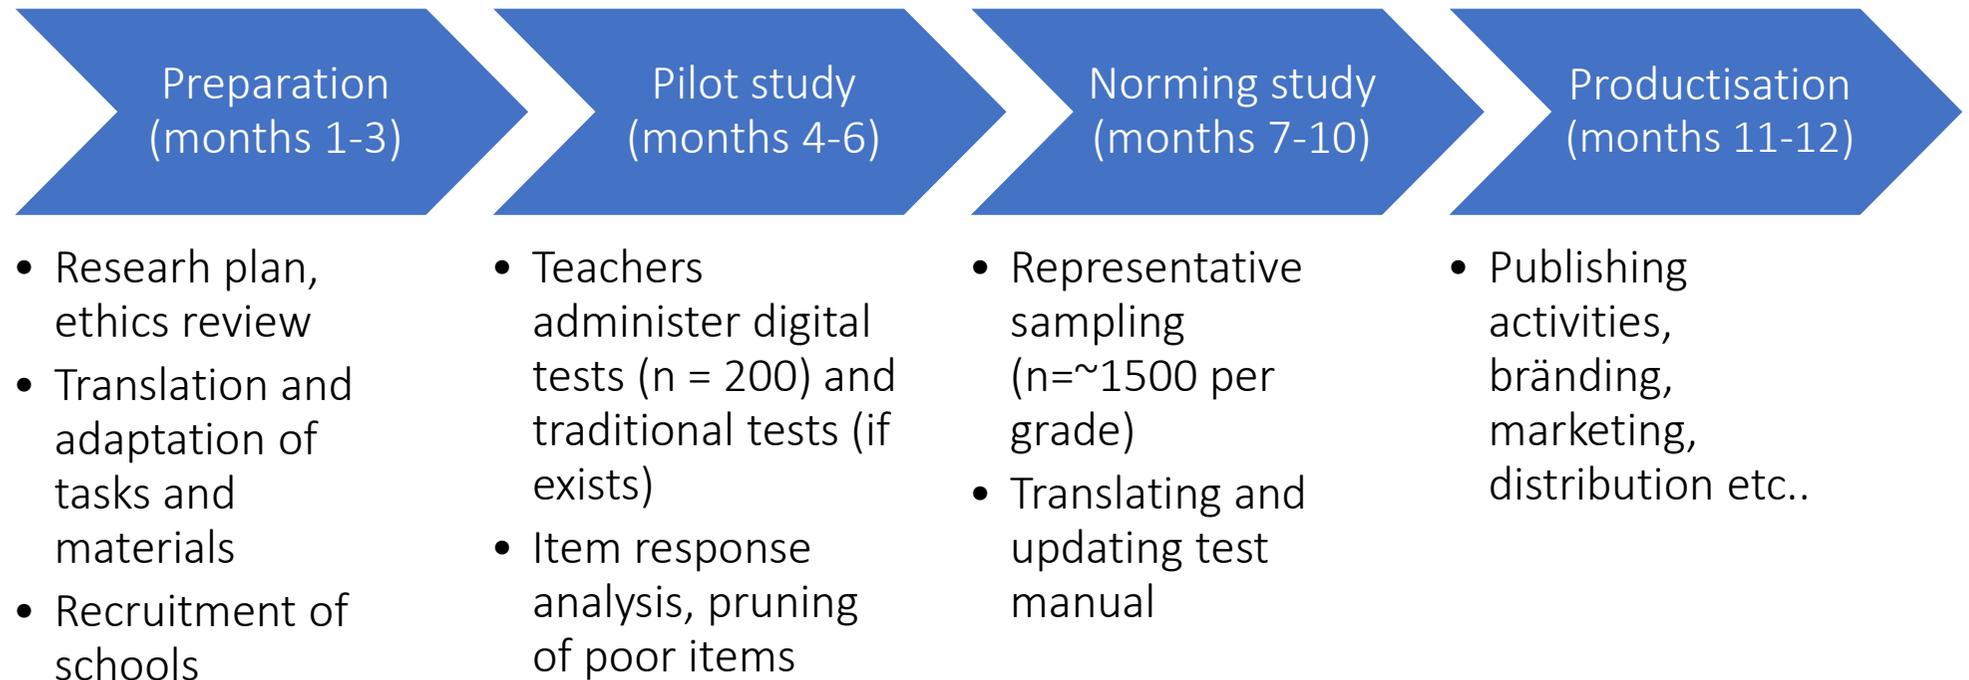

- Server-based digital assessment service:
  - Sentence reading fluency, word recognition, spelling, comprehension, math fluency, questionnaires
- Highly reliable and valid – stat analyses available in user manual
- Merchandising and user management via digital licences
- Teacher dashboard summarizes results and provides access to individual responses

# Follow regional reading achievement online: Development of reading fluency in Finland

## Timeline and resources for a localization process

### Resources:

**Minimum local team:** master thesis student + supervisor, needed consultants (e.g. language, pedagogy, stats) & business partner

**NMI consultation team:** reading researcher, software developers, statistician

# Evidence
